One of Seven Recorded Specimens

AV

1847. Edward III. 1327-1377. AV Half-noble (4.12 gm). Third coinage, third period, 1346-1351. Edward standing facing aboard ship, holding sword and arms / Ormate cross with lis at ends and E in center surrounded by crowns and lions. Schneider 5-6; North 1111; Seaby 1482. Good VF, a few scrapes. (\$6000)

This extremely rare and important coin exists in only seven specimens, four of which are in the British Museum, another two in the Schneider collection. It is one of the earliest English gold coins and the first extant half-noble issue; none of the half nobles from the second period (1344-1346) are known to have survived the intervening centuries.

SHARP EXTREMELY FINE 1916 DOUBLED DIE OBVERSE

- 43 1916 Doubled Die Obverse. FS-016. NGC graded **Extremely Fine 40**. Bold doubling on this well struck, well preserved specimen, the surface nickel-gray with deeper contrast around the devices and legends. If the Mint State of this great rarity found in the special Buffalo Nickel section of the sale is a little too high-brow for your budget or collection, perhaps this desirable Extremely Fine will do. It offers everything the grade requires, including a full head and horn on the buffalo, excellent rims, and no detractors of any sort.

Estimate: \$7,500-\$10,000

CLUB HUNTS 2001

Howdy All,

We plan to have some great club outings this year. All club members and their families are invited to participate. Some of these digs will be on privately owned property, by permission. Please remember to **FILL YOUR DIG HOLES** and carry out your trash. Most of these are set, any changes will be posted in the monthly newsletter, prior to the hunt. If you have any questions, ask the NUTS club officers. The hunts planned are as follows:

MARCH 10-11.....	LUCIN,UTAH
APRIL 21-22.....	IOSEPA,UTAH
MAY 19.....	TRACY WIGWAM BOY SCOUT CAMP.UTAH
JUNE 22-23.....	SUNSHINE,UTAH
JULY14-15.....	SILVER CITY AND TINTIC MINING AREA,UTAH
AUGUST 17-18.....	PIEDMONT, WYOMING
SEPTEMBER 21-22.....	FISH SPRINGS,UTAH

Some of these places are in somewhat remote areas, and far enough away so you may want to make plans to stay overnight - bring water,drinks and food. Bug repellent and a first-aid kit are not a bad idea. and most importantly - remember extra batteries for your metal detector!!! H ave fun and find something GREAT this year!

A New Town For An Old Known Token

There is no attribution of any known token to Park Valley. Park Valley is in Box Elder County on Highway 30. It is in the northwest corner of the state and is also northwest of Kelton.

In my pursuit of opening and closing dates of Utah co-ops I came across Western Co-op and Western Co-operative Assn. Each has been listed as being in Salt Lake City. The following is my case of showing Western Co-op to have been in Park Valley-not in Salt Lake City.

As I perused the R.L. Polk directories and other sources, I could not find Western Co-op listed in Salt Lake City. The Western Co-operative Assn. was listed in all of the directories from the 1900's to the 1950's. After more prodding, I found that the Western Co-operative Assn. existed in Salt Lake City from 1900-1957.

However, I remembered seeing something in Harry Campbell's book Campbell's Tokens of Utah about the Western Co-op. In reality in the "third edition, 1987" on page 581, it noted a store listed in 1920-22 at Park Valley, Utah. From the information on page 581 I began my search.

From the directories Western Co-op was never listed as being in Salt Lake City. Any mention of a Western Co-op in Salt Lake City always read "Western Co-operative Assn." A deeper search revealed that Western Co-op was in Park Valley and most likely existed from 1917-1923, and never in Salt Lake City.

The Western Co-op tokens were made by the Ingle System of Dayton, Ohio. The Western Co-operative Assn. tokens are completely different.

In December of 2000 I went to Park Valley to look around. Some of the local populace confirmed the existence of the co-op. I was shown the building that once housed the store. What a great feeling! Just being there and thinking about the old store and the hardy people was certainly worth the long trip.

My hope is that I have convinced you and others that the first known tokens from Park Valley are of the Western Co-op. In my mind there is no doubt that this is the case-a new town for an old known token.
